

Vyond

Virtual training agenda

Learners need more than static eLearning. They need attention-grabbing courses to pull them away from life's distractions - and animated video is the perfect way to do just that. In this one-day training course, delivered over two virtual sessions, you will learn everything you need to know about creating professional animated videos for your digital learning courses using Vyond.

Agenda

Module 1: **All about Vyond**

Module 2: **Getting started**

Module 3: **Creating your first video**

Module 4: **Making the most of templates**

Module 5: **Creating characters**

Module 6: **Adding props**

Module 7: **Using text**

Module 8: **Engaging audio**

Module 9: **Customising your content**

Module 10: **Planning your content**

Module 11: **Sharing your videos**

Prerequisites

Virtual training courses are delivered through live Zoom sessions and are designed for a variety of skill levels. All participants should have basic computer skills and familiarity with some of the more common user interfaces.

The sessions are interactive and hands-on, providing you with a great Omniplex classroom experience, but from the comfort of your own office (or home!). Please ensure you have a Vyond account before attending training. The free trial has reduced functionality and will limit how much you get out of the course.

You will also need to make sure that you have access to a stable wireless internet network to access Vyond. Please test this prior to attending the training session.
